Salt Lake City, - - Utah.

SUNDAY, - - - OCTOBER 11, 1885.

TWELVE PAGES.

To Herald Subscribers in Ogden.

The HERALD is delivered by carriers every morning in Ogden at 9.30. All complaints, orders for subscription, advertisements, etc., handed to the undersigned will receive prompt attention.

A. C. BROWN, HERALD Agent,
With David Eccles, Lumber merchant.

LOCAL BRIEFS.

A MIKADO rehearsal to-morrow evening.

DATHE has the latest issue of Harper's Weekly and Puck.

CONVULSION WEATHER comes a little late, but it gets here.

McKAY'S MARRIAGES is the new name for the Grand Jury.

McCORMICK & Co. yesterday received one of the Hanager bullion, \$3,120.

MISS FLORA MUSSEY was reported to be progressing favorably last evening.

T. E. JONES & Co. yesterday received two cars Germania bullion, value \$4,931.14.

The Aldrich Company concluded a successful engagement last evening to a good house.

MEMBERS of the male chorus of John's will meet at Calder's to-morrow evening, at 7.30.

It is quite probable that Fred Hoyt will appear from the recent decision in the District Court.

THE JAPANESE shoes for the Mikado company have been received from San Francisco by Spencer & Kimball.

MESSES. CANNON and Musser will probably be released to-morrow, if their fines are paid and the benefits of the Copper act extended.

THE STORM of yesterday proved that many of the street crossings in the business portion of the city are sadly in need of repair.

SECRETARY THOMAS yesterday issued a certificate to Jos. A. West, of Ogden, authorizing him to transact a general fire insurance business.

THE PATENT proprietors inaugurated a new enterprise last evening. At about 9.30 the cement floor was covered with a canvas, and dancing indulged in until 12.

THE THIRTIETH QUORUM of Seventies met in the Twentieth Ward Schoolhouse, Monday next, October 12, 1885, at 7 p.m.

T. C. JONES, Clerk.

THE POPULARITY of THE HERALD was strongly attested in Logan during Conference. The supply sent from this city was to the demand like a bucket of water poured into the ocean.

C. E. WALLIN leaves this morning for a trip through the southern portion of the Territory, where he goes to gather up specimens of Utah products for the coming exposition at New Orleans.

A BLACK valise was taken from the north-bound D. & R. G. train yesterday, the property of Mr. Alma Winn. A reward of \$50 will be paid for its return, and no questions asked. See special advt.

A CONCERT will be given in the Sixteenth Ward Schoolhouse to-morrow night, for the benefit of H. E. Parry, D. Emery and W. Spry, who are shortly going on a mission to the Southern States. A first-class programme is provided.

PRACTICES for the forthcoming Sunday school concert, under the direction of Mr. B. B. Young, are being vigorously prosecuted. It is expected that the first concert will occur two weeks from to-day. A general practice will be held on Tuesday evening, at 7.30.

SINCE the advent of the cold, damp weather, the number of people afflicted with coughs, colds, etc., has materially increased. We take pleasure in recommending for the relief of such cases the Valley-Tan Cough Cordial, which we know to be excellent.

Not a single newspaper was represented at the rousing lumbermen's convention at Logan except THE HERALD. The Tribune contained not a mention of the meeting, being too lazy, too impotent, or too fearful of missing some anti-Mormon slant to send a reporter.

THE INDICTMENTS against James Abbott and Fred Self, charged with larceny, were quashed in the Third District Court yesterday, on motion of the prosecution. It is understood they were both defective. The cases will probably be considered by the present Grand Jury.

THE STATEMENT in our Conference report to the effect that the name of W. H. Folsom had been substituted for that of T. O. Angell, Jr., as assistant architect, was an error. Mr. Folsom has long been in the position he now fills. Mr. Angell's name was simply not presented.

VISITORS from this city to Conference were disgusted with the condition of the cars on the Utah Northern. Dirt, evil smells, and an utter absence of water from the tanks were the prevailing characteristics of the rolling stock. A strong dose of parallel line is what is sadly needed in that direction.

THE CATERPILLAR Literary Club have started their serious deliberations on debatable subjects in earnest, and meet every Thursday evening, in the Tenth Ward Schoolhouse. Next Thursday evening a question of interest to ladies is to be considered and the public is invited. Commences at 7.30 o'clock.

A GRACE at THE SUNDAY HERALD will show that it maintains its long advance ahead of all competitors. The Tribune howls, lies and foams about this paper—does everything, in fact, except to equal its brightness, reliability, variety and general tone. In the meantime, THE HERALD soars serenely onward, gaining in favor and circulation every day, while the dry-rot organ reels in the anti-Mormon slush and canker it is pleased to call news.

"The" Place of Beverages.

The Occidental bar, where the choicest of wines, liquors and beers are manipulated in the most tempting fashion by the experienced proprietors. The family trade and private parties supplied. Best of California and imported wines and fragrant cigars always in stock.

DRIED FRUIT.

One of Utah's Important Industries.

The heaviest fruit-shipping house in Salt Lake is without question, the establishment of Mr. S. P. Teasdel—the Eagle House. THE HERALD has on many occasions noted shipments of various kinds of dried fruits by Teasdel, and yesterday, observing unusual bustle and activity about the store, a reporter dropped in to see what was going on, and to get some facts and figures about an industry that has assumed such large proportions. Busy as he was, the genial proprietor found time to impart the desired information, and also to lead the man of letters through walls of fruit bags and among deep and wide bins that were being filled and emptied as fast as one set of three men could unload from country wagons and another set could re-sack, label and send the bags to the depot for shipment by rail to the east.

As soon as the fruit is received it is put into large bins holding from one to three carloads each; this is done in order that the quality of the fruit may be ascertained, while the sacks are being emptied, and the imperfect or inferior separated from the better grade. Utah dried fruit enjoys an excellent reputation in the east, where it is much sought for at higher prices than is asked for the home article. The preference is so great that while eastern dried peaches are quoted in the St. Louis and Chicago markets at 3½ cents per pound, the local buying price of Utah dried peaches to send east, throughout the season is from 50 to 60¢ per pound. The reputation of our fruit was established and has been maintained by just such care as Mr. Teasdel is exercising; knowing that the fruit will be inspected, tried and compared, the wise shipper will see that the quality is all that has been claimed for it. Mr. Teasdel says he guarantees all shipments as to quality, and for years every sack that has gone out from his house the legend in plain letters: "Choice Dried Peaches, from S. P. Teasdel, Salt Lake City."

The gentleman says in this connection, that many of our fruit-growers have grieved and felt perplexed when on examination their fruit has been declined, for the reasons that the stripes were cut in quarters, the halves contained so much moisture that they were sticky; sometimes fruit is brought for sale with the pulp washed away by rain. It should be understood by fruit dryers, that fruit wet by rain in drying can never be restored to good condition by any amount of drying; the pulp part is destroyed, and with it the fine, natural flavor is lost; you can not restore the fruit any more than you can restore fine granulated sugar to a good condition, by drying after it has been wet.

The visit to Mr. Teasdel's fruit bins was not only interesting in that it gave a full view of the vastness and commercial importance of the industry, but it also suggested an explanation of how many a good housewife assisted largely in bearing the household expenses. Most of the labor of preparing the fruit for the market is performed by women and children—the gathering from the orchard, the cutting, spreading on the boards and sheets, and the usual gathering and sacking for market. The hours taken from other household duties, or from the playground, are paid for in the new shoes, the gloves, the ribbons, etc., which go to make up the necessities and luxuries of the family. We are assured that not a few families obtain the larger proportion of their winter dry goods and groceries from the proceeds of their fruit crops.

It would be of interest to know the exact amount of money that comes into the Territory for fruit; the total would be found to be enormous, as may be imagined when it is stated that one season Mr. Teasdel alone shipped between twenty-five and thirty carloads. Yesterday he was loading two cars, and his bins of peaches, apples, plums, apricots and cherries suggested train loads yet to be sent out, while he was still receiving and unloading, wondering where he would store it all, should this thing keep up.

This season has been a most excellent one for fruits of all kinds; the quantity is larger than usual, and quality fully up to the standard, while the long period of dry weather has enabled the orchardists to save a larger proportion than usual.

THE HERALD heartily wishes success to the dried fruit industry, and hopes that it may grow and extend every year.

R. Kletting's Evening School.

Will again be opened on Monday, October 19th, for people desirous of employing the long winter evenings in a profitable manner. The scholars attending will have an excellent opportunity to perfect themselves in their different lines of business, as well as their general education, and the school can be specially recommended for its arithmetic and mathematics, natural history and mechanics, ornamental mechanical, architectural and landscape drawing, French, German, penmanship and bookkeeping. Arrangements have also been made with competent teachers to give lessons in chemistry, mineralogy and shorthand writing, if required, at reasonable prices.

The principal teachers are the same as last year: R. Kletting, the well-known architect of this city; T. C. Hull, a thorough experienced accountant and teacher; and Mr. T. W. Whitley, mechanical engineer, and former teacher at the evening school in Pittsburgh, Pa. This, together with the fact that from six scholars in 1883-84, this number increased to forty-two last winter, and was taught with very satisfactory results, will convince everybody of the solidity of the enterprise.

The prices of admission are very moderate, so as to enable everybody to participate. Parents who are unable to send their sons to day schools, will act in their interest to send them here. See advertisement.

COME FORWARD with your magazine binding and music, as we have the best facilities in the city for such work at THE HERALD Job Department.

TEACHERS' ASSOCIATION.

An Interesting and Instructive Meeting Yesterday.

In spite of the unfavorable condition of the weather, quite a fair representation of the teachers of Salt Lake County met in the Fourteenth Ward Assembly Rooms, yesterday.

The programme was rendered as follows:

"What a Trustee Expects of a Teacher" by a trustee, Mr. John N. Pike was the trustee. The gentleman said that a teacher should be a perfect gentleman or lady and should have a natural ability to teach. The teacher should be prompt and punctual in all his doings, for without these qualities no business can prosper. If a teacher is unavoidably behind time, he should offer an explanation to his pupils. He should teach the children in fact, and orderly in their habits; in fact, teaching them what will have a tendency to make good and useful men and women. A teacher in making an application for a school, should present it in writing and in a business like form. There is often a lack of care on the part of the teacher in looking after the school property; he should see that all is in order before opening school, and the same before locking up for the night. Thought that teachers were not strict enough in the management of their schools, and for this reason the children were not so well behaved in other places as they should be. A teacher should acknowledge his pupils when he meets them on the street.

On "The Principles Underlying Reading" President William M. Stewart said there were principles underlying all branches of education, and it is of prime importance that teachers should understand these principles. Reading is getting thought by means of written and printed words arranged in sentences. There are four ways in which a child gets thought, by seeing the object, by seeing a picture of the object, by being told about it, and by reading about it. When a child learns a vocabulary of words he commences to put these into sentences. Reading is not an end but a means of education. In learning to read memory is about the first faculty of the mind that is used; and the only true way to cultivate the memory is through the great law of association; for it is only by this law that the child can call forth the knowledge that it has received. Thought should govern expression in reading; and if it does so there will be no need to explain the uses of the marks of punctuation. Never allow a child to read a word unless he knows the meaning of it and never to read a sentence unless the reading is preceded by thought. The remarks of the speaker were interesting throughout.

The association adjourned till Saturday, October 24th, to meet again in the same place.

CRANKY COW-BOY CAPERS

Cause the Death of Erank Fithian at Soda Springs.

SODA SPRINGS, IDAHO, Oct. 8, 1885.

To the Editor of THE HERALD.

At about 3 o'clock this afternoon, while some drunken cow-boys were dancing in front of Cable's saloon, not long ago the scene of Eph T. Williams' murder, Frank Fithian, of Lockport, N. Y., was killed by Rodney Wright. The latter was standing upon the stoop, with a revolver in his hand, keeping time with it to the music, and calling on Fithian to dance in a style better to please him. Suddenly the pistol was discharged, the shot perforating Fithian's stomach and passing out at his back. It might have been considered accidental had not Wright exclaimed: "Have you got enough, or do you want some more?" Thereupon he deliberately untied his horse and mounted him, while covering the bystanders with his weapon and rode off at a fast gallop. The victim was in search of employment, having a letter of recommendation in his pocket addressed to any cattle man who might need his services. The murderer belonged to the outfit of Rand & Steadman, whose herds have been grazing in this neighborhood during the past summer.

I enclose the verdict of the jury. It is non-committal, for, as one of them informed me, only the boy would testify to the remarks made by Wright after the shooting, while the other witnesses would probably have sworn that nothing was said and that the boy lied or imagined it. The truth probably was that the boy was the only one who had his wits about him, and the rest of the bystanders, as is evident from their so quietly letting the murderer escape, were too scared to know anything about it.

Two of the chums of Wright came in from camp this morning, to find what was the result of the shooting, and left to inform their comrade, who has doubtless skipped. If the constable, with a sufficient posse, had gone out to the camp last night they might have captured him, but they waited for the sheriff, who is expected in the morning.

SODA SPRINGS, IDAHO, October 8th, 1885.

We, the jury empanelled and sworn to inquire into the cause of the death of the body now before us, do find that the name of deceased was Frank Fithian, and that he came to his death by a wound, caused by a shot from a pistol in the hands of a man known as Rodney Wright.

THE THREE INDEPENDENTS.

Views of One of the Men Who Refused to be Used as Puppets.

Judge Zane's course in remodeling the consciences of the Grand Jury to suit the narrow strait-jacket pattern of the Zane, Dickson & McKay patent, was the general theme of conversation on the streets yesterday. A HERALD reporter met Mr. J. G. Davis, the stock broker, one of the three who refused to hand over their conscience into the judge's hands, and in the course of the conversation the gentleman said:

"I see nothing to convince me that I did anything but just what was right. The position of Grand Juror was one that I would have given a good many dollars to escape from, but once sworn in, neither Judge Zane, Mr. Dickson nor Mr. McKay could control my notion of what was right and what was wrong. I said to Judge Zane, and I say so still, that Musser and Cannon were sent to the Pen prior to his ruling about the multiplicity of indictments for the same offense, and that once out, I was not going to re-indict them till I saw what their course would be. That ruling might make a material change in their conduct. I believed in giving them a chance to obey the law, anyway. Understand, I am no believer in polygamy, but I am a believer in common fairness. I do not think Judge Zane had any right to rule us off, because the thing had never yet come to a vote, and he ought at least to have waited until we had voted on the Musser or Cannon indictment before deciding that we were ineligible to act. I have never refused to indict a man where every thing was clear against him, and I voted for the three indictments against Mr. Gowans. But this punishing a man once, and going after him again before you know whether he is going to reform or not, is something I don't intend to side in with."

SPORTS AND PASTIMES.

The storms of winter ushered in the period of the sportsman's hibernation, and with this issue of the SUNDAY HERALD Sports and Pastimes will be discontinued until the warm spring again sets in motion the turfmen, the baseballists, the wheelers, the shootists, etc. The season now closing has been one of the most eventful ever witnessed in the history of sports in our community. The completion of the Driving Park's course, the fine meetings witnessed there, the baseballists visit to Colorado, the return trip of the Denver team, the blooming into formidableness of the Willards and Ogden's, the medals secured by the bicyclists and the records several individuals have made on wheels—all going to make up a summer of diversion and excitement in field and turf. The prospects for next season are even more promising; the money made by the Driving Park Association is an incentive for them to push ahead, to make even more notable meetings, and the retention of Velox by one of our citizens, the purchase of Romero, Inca and other animals argues well for the future of home records. The fact that we have now three, if not four, base ball clubs of a sufficient caliber to draw good money to the grounds, is thoroughly established, and there is not the slightest reason why there should not exist a Utah league of our leading clubs, after the pattern of the Colorado league, formed by Denver, Pueblo and Leadville. All the movement requires is for the right man to step forward and take hold of the matter.

Notwithstanding the cessation of Sports and Pastimes, full particulars will continue to be furnished of all events that may transpire in the sporting world between this time and winter.

Should be Cared For.

A crazy woman, by the name of Mrs. Kin, has made the neighborhood resound with unearthly cries for the past three or four days. She has been an inmate of the city jail and surroundings for some time past, but should receive proper care and treatment. The only place for such unfortunate is the asylum, a place specially built and prepared for them. It is the duty of somebody to take care of Mrs. Kin, and it is understood that she has relatives who could take care of her.

The Concert To-Day.

The following programme will be rendered at Fort Douglas by the Sixth Infantry Band, commencing at 4 o'clock:

WHEEL NOTES.

THE ONLY wheels on the track Thursday were Columbias.

It is probable that Walter Jennings will hold the racing honors for next year or two.

THE RACE between Masters Earl Pembroke and David Tribe caused more amusement than all the other races.

Wm. Wood shortly intends leaving the city on a mission. The boys want to give him a "send-off" before he leaves.

THE LAST man in the last race on Thursday is entitled to the leather medal. Come and take your medicine, Brookley!

LEWIS PACE's efforts on the 8th prove him to be of good metal, and he will no doubt give the second class a hard rub next year.

THE MEDALS are now held as follows: First, Walter Jennings; second, T. J. Angell; third, Lewis Pace; fourth, J. Davis; fifth, F. G. Brooks.

MR. T. J. ANSELL deserves credit for his style of racing, beginning, as he does, to run from the first, instead of creeping along for the first five laps and then spurring to finish.
